2. Hollister Data on File, TR-00643, 2023

HydraBalance™
Lubricating Technology

Making a difference in the journey of life.

Experience the ease of use³ and comfort⁴ of our NEW HydraBalance™ lubricating technology

Made with naturally sourced ingredients, its unique combination of hydrophilic coating and hydration fluid creates a smoothly gliding cushion that not only helps protect the urethra, but also provides smooth and effortless insertion and withdrawal for a more confident and natural catheter experience.^{5,6}

Key features of our NEW HydraBalance™ lubricating technology:

Smooth and comfortable on catheter insertion and withdrawal.⁷

Helps protect the urethra from potential micro trauma and Urinary Tract Infections.⁸

Designed to capture the right balance of naturally sourced ingredients for as natural of an intermittent catheter experience as possible.⁹

Better for the planet

Hollister catheters that use **HydraBalance™ lubricating technology** are made without PVC, and reduce material use and waste.^{10,11}

The catheter glides effortlessly for ease of use giving users confidence and more time for living.¹²

Jonny uses VaPro™ catheters

Cushioned and longer¹³ lasting lubricity that helps protect the urethra from potential microtrauma and Urinary Tract Infections¹⁴

Smoothly gliding cushion

PVC-free tube

Hydrophilic catheter coating

- With its combination of hydrophilic coating and hydration fluid it creates a smoothly gliding cushion when in contact with the urethra¹⁵
- The enhanced hydration fluid contains naturally sourced ingredients¹⁶
- Contains Glycerol, which is produced naturally by the body and provides osmotic water balance in the urethra during catheterizing^{17, 18, 19, 20}
